CLABBY GETS DECISION OVER KETCHELL

Former Norwich Boy was the Heavy Hitter—Ketchell Beats Up McGinn—Giants in Last Place Again

Boston, May 18.—Tommy Quill of the Boston Braves, who was the heavy hitter of the team, tonight in the first inning of the game at the Armory Athletic Clubhouse, beat up McGinn, who was the heavy hitter of the team, and won the game for the Braves.

From the fact that Clabby is a native of this city, there was much interest in the outcome of the above fight. Clabby, who is a telephone wire, received all the evening at The Boston office as to how Clabby was doing. When the result was learned it was the opinion that Clabby would have to have another go at the Brooklyn boy before his followers here would admit that this one bout was decisive. Clabby has two years in age on Clabby and also two years more of experience in the ring.

Clabby of North Thames street, who is his uncle, expects Jimmy to visit him for several days this week, probably coming this morning.

SIX TIMES DOWN FOR COUNT OF NINE.
McGinn was Chopping Block for Ketchell, Middleweight Champion. Pittsburgh, May 18.—Six times tonight Hugh McGinn went down for a count of nine in a six round bout with Stanley Ketchell, champion middleweight of the world. Five times in the sixth round he was saved from a knockout by a second, twice he was knocked through the ropes and clear across the press table into the seats of spectators. Ketchell apparently toyed with his opponent. Only the cheering chorus of the champions from the audience inspired McGinn several times to get upon his feet again, after being hit and knocked out. For the first time in his career McGinn fought hard and landed several times on the champion, but apparently he exhausted himself in the early rounds and could not face the powerful blows of his antagonist after the first half of the bout. Never before has so large an audience witnessed a boxing match here, six thousand persons crowding the Duquesne gardens.

BOTH CONFIDENT.
Johnson Says Fight Won't Go the Limit—O'Brien Delighted at the Chance.

Philadelphia, May 18.—A visit to the respective training quarters of Philadelphia Jack O'Brien and Champion Jack Johnson found the two fighters late today in good condition, and each equally sanguine of the result of tomorrow's battle. O'Brien in particular was delighted at the opportunity of meeting the big colored fighter. Johnson will enter the ring at close to 200 pounds, while O'Brien will tip the scales at about 170. Johnson said tonight that the bout would not go the limit and that he would be returned the victor.

Weston Going Through Kansas.
Winona, Kas., May 18.—Edward Payson Weston, walking to San Francisco from New York, crossed the Kansas line this afternoon, expecting to reach Sharon Springs by midnight.

FINANCIAL AND COMMERCIAL.

PRICES DRIFTED FEEBLY.
Strength of C. & O. One of the Few Features.
New York, May 18.—The stock market today was almost bare of feature. The action was inconsiderable, as an indication of financial opinion or speculative sentiment. The professional element was greatly divided in view of this division, instead of prompting opposing operations, had the effect of discouraging activity altogether. The contention was very general that large speculative commitments had been closed out of the market by sales to take profits. This conviction left the professional traders undecided as to the significance of the fact. One party argued that the desire to get away from summer trips to Europe and enjoy the profits accrued furnished the motives for the recent selling, and not any well grounded distrust of the stability of the market. Prices drifted feebly and changed their current frequently. Some of the obscure stocks which have been supported by pools lately were allowed to run off weakly. Some other specialties showed signs of being sustained. Strength of Chesapeake & Ohio was one of the few features of the market. This was accounted for by the talk of the intention to extend its connections and join it with other smaller roads already under common ownership to organize a new and important trunk line railroad system. The failure of a stock exchange house, which knows how to handle the large additions to the movement. The resumption of the publication of weekly bulletins by the weather bureau received some attention, in view of the high importance attached to crop chances at this time. Reports of restoration of wages which have been recently cut by some of the independent steel companies, made a good impression and strengthened the belief in the progress of improvement in that trade. The belated rise in United States Steel gave the market the only semblance of animation. It enjoyed at any time during the day and had the effect of making the closing strong. Bonds were irregular. Total sales, par value, \$5,359,000. United States bonds were unchanged on call.

The decline to get away for summer trips. But the Bureau of Census reported furnished the motive for the recent selling, and not any ill grounded distrust of the stability of the market. Prices drifted feebly upward, changing their course only to resume the sale of the obscure stocks which have been supported by pools lately were allowed to run off weakly. Some other stocks showed signs of being sustained. Strength in Cereals and Wool was one of the few features of the market. This was accounted for by the fact that the railroads had connections and join it with other smaller roads already under common ownership to organize a new and important trunk line railroad system. The stock exchange closed at 11:15 a.m. which became known over night, appeared to be ignored, probably owing to the small accounts outstanding at the time. The closing of the market these accounts was followed by the rise, however. Further engagements of gold for export to South America, and the announcement of large additions to the movement of the resumption of the publication of weekly bulletins by the weather bureau, produced some attention in view of the high importance attached to the top chances at this time. Reports of restoration of wages which have been recently cut by some of the independent manufacturing companies, and the session and strengthened the belief in the progress of improvement in that direction. The raised rise in United States Steel gave the market a new impulse of animation it enjoyed at the time during the day and had the effect of making the closing strong. Total regular stock sales, par value, \$3,356,690. United States bonds were unchanged on call.
